

Enriching Learning Together

OUR VISION

To create a family of schools committed to excellence, continuous improvement and innovation in all we do

Where all pupils are

- inspired to learn and develop as rounded individuals able to play a positive role in society
- encouraged to aim high and know they are valued, regardless of ability or background
- enabled to take advantage of exceptional opportunities to fulfil their potential within the school and beyond

Where all staff and Trustees are

- inspired to want the best for our pupils and schools within the Trust
- encouraged to be innovative, collaborative and inspirational
- enabled to develop themselves and deliver exceptional outcomes

We aspire to being a model among trusts in all aspects of education, leadership, people development and governance.
